

Press release

**Change of management at Sauerbruch Hutton
January 2023**

Vera Hartmann and David Wegener join the management of Sauerbruch Hutton Gesellschaft von Architekten and Sauerbruch Hutton Generalplanungsgesellschaft. Andrew Kiel and Lina Lahiri have been elected Speakers for the Partner group.

According to our new partnership, the management of the operating companies and the speakers for the partner group are elected - or re-elected - every third year. Such an election took place for the first time before Christmas and we are pleased to announce the above changes.

Louisa Hutton and Matthias Sauerbruch have decided to reduce their two managing director roles and jointly fill only one GF position, with Matthias Sauerbruch assuming the legal representation. The vacant role has been filled by Vera Hartmann. David Wegener is taking on the role of deputy managing director, while Juan Lucas Young (managing director) and Jürgen Bartenschlag (deputy managing director,) remain in their positions as before.

The Partners would like to thank the previous and remaining members in the management for their well-considered work over the past three years. They congratulate the newcomers and look forward to successful cooperation and continuation of the interesting and constructive dialogue.
